## PREP & COOKING INSTRUCTIONS

Our Roast and Serve is fully cooked and ready to eat. However, it is designed as a RTC Roast replacement and should be heated in an oven for serving. Butterball recommends removing the product from it's packaging and placing it in a shallow pan. Heat the product in a convection oven set at 350 degrees F for 45-60 minutes or to your desired serving temperature and level of "brown-ness" for your application. Unlike a RTC Roast, you can signaturize this product to your operation with topical glazes, rubs and seasoning.

SERVE WITH CONFIDENCE.™
